ASTRONICS CORPORATION  
**Notes to Consolidated Condensed Financial Statements**  
September 30, 2017  
(Unaudited)

***1) Basis of Presentation***

The accompanying unaudited statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation have been included.

All 2016 share quantities and per share data reported have been restated to reflect the impact of the three-for-twenty Class B stock distribution to shareholders of record on October 11, 2016.

***Operating Results***

The results of operations for any interim period are not necessarily indicative of results for the full year. Operating results for the nine months ended September 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017.

The balance sheet at December 31, 2016 has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements.

For further information, refer to the financial statements and footnotes thereto included in Astronics Corporation's 2016 annual report on Form 10-K.

***Description of the Business***

Astronics Corporation ("Astronics" or the "Company") is a leading supplier of products to the global aerospace, defense, electronics and semiconductor industries. Our products and services include advanced, high-performance electrical power generation, distribution and motion systems, lighting & safety systems, avionics products, aircraft structures, systems certification, automated test systems and other products.

We have operations in the United States ("U.S."), Canada and France. We design and build our products through our wholly owned subsidiaries Armstrong Aerospace, Inc. ("Armstrong"); Astronics Advanced Electronic Systems Corp. ("AES"); Astronics AeroSat Corporation ("AeroSat"); Ballard Technology, Inc. ("Ballard"); Astronics DME LLC ("DME"); Luminescent Systems, Inc. ("LSI"); Luminescent Systems Canada, Inc. ("LSI Canada"); Max-Viz, Inc. ("Max-Viz"); Peco, Inc. ("Peco"); PGA Electronic s.a. ("PGA") and Astronics Test Systems, Inc. ("ATS"). On April 3, 2017, Astronics Custom Control Concepts Inc. ("CCC") acquired all of the assets and certain liabilities of Custom Control Concepts LLC.

***Cost of Products Sold, Engineering and Development and Selling, General and Administrative Expenses***

Cost of products sold includes the costs to manufacture products such as direct materials and labor and manufacturing overhead as well as all engineering and development costs. The Company is engaged in a variety of engineering and design activities as well as basic research and development activities directed to the substantial improvement or new application of the Company's existing technologies. These costs are expensed when incurred and included in cost of products sold. Research and development, design and related engineering amounted to \$23.7 million and \$21.6 million for the three months ended and \$69.5 million and \$66.2 million for the nine months ended September 30, 2017 and October 1, 2016, respectively. Selling, general and administrative expenses include costs primarily related to our sales and marketing departments and administrative departments. Interest expense is shown net of interest income. Interest income was insignificant for the three and nine months ended September 30, 2017 and October 1, 2016.

***Foreign Currency Translation***

The aggregate transaction gain or loss included in operations was insignificant for the three and nine months ended September 30, 2017 and October 1, 2016.

**Accounting Pronouncements Adopted in 2017**

On January 1, 2017, the Company adopted Accounting Standards Update (“ASU”) No. 2016-09, *Improvements to Employee Share-Based Payment Accounting*. Prospectively, beginning January 1, 2017, excess tax benefits/deficiencies are reflected as income tax benefit/expense in the statement of income, resulting in a \$0.3 million tax benefit for the nine months ended September 30, 2017. The extent of excess tax benefits/deficiencies is subject to variation in the Company’s stock price and timing/extent of employee stock option exercises. Under previous accounting guidance, when a share-based payment award such as a stock option was granted to an employee, the fair value of the award was generally recognized over the vesting period. However, the related deduction from taxes payable was based on the award’s intrinsic value at the time of exercise, which could be either greater (creating an excess tax benefit) or less (creating a tax deficiency) than the compensation cost recognized in the financial statements. Excess tax benefits were recognized in additional paid-in capital (“APIC”) within equity, while deficiencies were first recorded to APIC to the extent previously recognized excess tax benefits existed, after which time deficiencies were recorded to income tax expense. The Company’s adoption of this ASU also resulted in associated excess tax benefits being classified as an operating activity in the same manner as other cash flows related to income taxes in the statement of cash flows prospectively beginning January 1, 2017. Based on the adoption methodology applied, the statement of cash flows classification of prior periods has not changed. As permitted by the ASU, the Company has elected to account for forfeitures as they occur. None of the other provisions in this amended guidance had a significant impact on the Company’s consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, *Simplifying the Test for Goodwill Impairment*. Under the new standard, goodwill impairment would be measured as the amount by which a reporting unit’s carrying value exceeds its fair value, not to exceed the carrying value of goodwill. This ASU eliminates existing guidance that requires an entity to determine goodwill impairment by calculating the implied fair value of goodwill by hypothetically assigning the fair value of a reporting unit to all of its assets and liabilities as if that reporting unit had been acquired in a business combination. This ASU is effective prospectively to annual and interim impairment tests beginning after December 15, 2019, with early adoption permitted. The adoption of ASU 2017-04 on January 1, 2017 had no impact on the financial statements as of or for the three or nine months ended September 30, 2017, as there was no impairment analysis performed during the period.

**2) Inventories**

Inventories are as follows:

(In thousands)	September 30, 2017	December 31, 2016
Finished Goods	\$ 36,850	\$ 28,792
Work in Progress	32,997	20,790
Raw Material	69,418	67,015
	<u>\$ 139,265</u>	<u>\$ 116,597</u>

**3) Property, Plant and Equipment**

The following table summarizes Property, Plant and Equipment as follows:

(In thousands)	September 30, 2017	December 31, 2016
Land	\$ 11,223	\$ 11,112
Buildings and Improvements	81,361	79,191
Machinery and Equipment	102,386	93,683
Construction in Progress	9,334	8,182
	<u>204,304</u>	<u>192,168</u>
Less Accumulated Depreciation	80,023	69,356
	<u>\$ 124,281</u>	<u>\$ 122,812</u>

#### 4) Intangible Assets

The following table summarizes acquired intangible assets as follows:

(In thousands)	Weighted Average Life	September 30, 2017		December 31, 2016	
		Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Patents	4 Years	\$ 2,146	\$ 1,590	\$ 2,146	\$ 1,450
Non-compete Agreement	3 Years	2,500	1,354	2,500	979
Trade Names	7 Years	10,480	3,866	10,189	3,153
Completed and Unpatented Technology	5 Years	26,094	11,147	24,118	9,221
Backlog	Less than 1 Year	11,524	11,424	11,224	11,224
Customer Relationships	11 Years	99,831	28,139	97,046	23,093
<b>Total Intangible Assets</b>	<b>5 Years</b>	<b>\$ 152,575</b>	<b>\$ 57,520</b>	<b>\$ 147,223</b>	<b>\$ 49,120</b>

All acquired intangible assets other than goodwill and one trade name are being amortized. Amortization expense for acquired intangibles is summarized as follows:

(In thousands)	Nine Months Ended		Three Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Amortization Expense	\$ 8,269	\$ 8,202	\$ 2,929	\$ 2,595

Amortization expense for acquired intangible assets expected for 2017 and for each of the next five years is summarized as follows:

(In thousands)	
2017	\$ 11,089
2018	10,593
2019	10,214
2020	9,658
2021	9,612
2022	9,216

#### 5) Goodwill

The following table summarizes the changes in the carrying amount of goodwill for the nine months ended September 30, 2017:

(In thousands)	December 31, 2016	Acquisition	Foreign Currency Translation	September 30, 2017
Aerospace	\$ 115,207	\$ 3,067	\$ 844	\$ 119,118
Test Systems	—	—	—	—
	<b>\$ 115,207</b>	<b>\$ 3,067</b>	<b>\$ 844</b>	<b>\$ 119,118</b>

#### 6) Long-term Debt and Notes Payable

The Company's obligations under the Credit Agreement as amended are jointly and severally guaranteed by each domestic subsidiary of the Company other than a non-material subsidiary. The obligations are secured by a first priority lien on substantially all of the Company's and the guarantors' assets.

The Company's Credit Agreement consists of a \$350 million revolving credit line with the option to increase the line by up to \$150 million. The Credit Agreement expires on January 13, 2021. At September 30, 2017, there was \$167.0 million outstanding

on the revolving credit facility and there remains \$181.9 million available, net of outstanding letters of credit. The credit facility allocates up to \$20 million of the \$350 million revolving credit line for the issuance of letters of credit, including certain existing letters of credit. At September 30, 2017, outstanding letters of credit totaled \$1.1 million.

The maximum permitted leverage ratio of funded debt to Adjusted EBITDA (as defined in the Agreement) is 3.5 to 1, increasing to 4.0 to 1 for up to two fiscal quarters following the closing of an acquisition permitted under the Agreement. The Company's leverage ratio was 2.12 to 1 at September 30, 2017. The Company will pay interest on the unpaid principal amount of the facility at a rate equal to one-, three- or six-month LIBOR plus between 137.5 basis points and 225 basis points based upon the Company's leverage ratio. The Company will also pay a commitment fee to the lenders in an amount equal to between 17.5 basis points and 35 basis points on the undrawn portion of the credit facility, based upon the Company's leverage ratio. The Company must also maintain a minimum interest coverage ratio (Adjusted EBITDA to interest expense) of 3.0 to 1 for the term of the Agreement. The Company's interest coverage ratio was 20.2 to 1 at September 30, 2017.

In the event of voluntary or involuntary bankruptcy of the Company or any subsidiary, all unpaid principal and other amounts owing under the Agreement automatically become due and payable. Other events of default, such as failure to make payments as they become due and breach of financial and other covenants, change of control, judgments over a certain amount, and cross default under other agreements give the Agent the option to declare all such amounts immediately due and payable.

### 7) Product Warranties

In the ordinary course of business, the Company warrants its products against defects in design, materials and workmanship typically over periods ranging from 12 to 60 months. The Company determines warranty reserves needed by product line based on experience and current facts and circumstances. Activity in the warranty accrual is summarized as follows:

(In thousands)	Nine Months Ended		Three Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Balance at Beginning of Period	\$ 4,675	\$ 5,741	\$ 4,637	\$ 5,361
Acquisitions	359	—	—	—
Warranties Issued	1,315	1,806	483	600
Warranties Settled	(1,832)	(1,906)	(608)	(616)
Reassessed Warranty Exposure	101	(313)	106	(17)
Balance at End of Period	\$ 4,618	\$ 5,328	\$ 4,618	\$ 5,328

### 8) Income Taxes

The effective tax rates were approximately 27.0% and 29.3% for the nine months ended and 29.9% and 26.5% for the three months ended September 30, 2017 and October 1, 2016, respectively. The 2017 tax rates were favorably impacted relative to the statutory rate by excess tax benefits associated with the exercise of stock options, decreases in foreign tax rates, and from the federal research and development tax credit.

**9) Shareholders' Equity**

The changes in shareholders' equity for the nine months ended September 30, 2017 are summarized as follows:

(Dollars and Shares in thousands)	Amount	Number of Shares	
		Common Stock	Convertible Class B Stock
Shares Authorized		40,000	15,000
Share Par Value		\$ 0.01	\$ 0.01

<b>TOTAL SHAREHOLDERS' EQUITY</b>			
Beginning of Period	\$ 337,449		
End of Period	\$ 337,330	21,075	6,927

On February 24, 2016, the Company's Board of Directors authorized the repurchase of up to \$50 million of common stock (the "Buyback Program"). The Buyback Program allowed the Company to purchase shares of its common stock in accordance with applicable securities laws on the open market or through privately negotiated transactions. The Company has repurchased approximately 1,675,000 shares and has completed the program, which authorized repurchases up to \$50.0 million.

**10) Earnings Per Share**

Basic and diluted weighted-average shares outstanding are as follows:

(In thousands)	Nine Months Ended		Three Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Weighted Average Shares - Basic	28,779	29,199	28,322	28,925
Net Effect of Dilutive Stock Options	978	937	678	883
Weighted Average Shares - Diluted	29,757	30,136	29,000	29,808

The 2016 information above has been adjusted to reflect the impact of the three-for-twenty Class B stock distribution to shareholders of record on October 11, 2016.

Stock options with exercise prices greater than the average market price of the underlying common shares are excluded from the computation of diluted earnings per share because they are out-of-the-money and the effect of their inclusion would be anti-dilutive. The number of common shares covered by out-of-the-money stock options at September 30, 2017 was approximately 356,000 shares.

**11) Accumulated Other Comprehensive Loss and Other Comprehensive Income**

The components of accumulated other comprehensive loss are as follows:

(In thousands)	September 30, 2017	December 31, 2016
Foreign Currency Translation Adjustments	\$ (4,610)	\$ (8,597)
Retirement Liability Adjustment – Before Tax	(10,008)	(10,611)
Tax Benefit	3,503	3,714
Retirement Liability Adjustment – After Tax	(6,505)	(6,897)
Accumulated Other Comprehensive Loss	\$ (11,115)	\$ (15,494)

The components of other comprehensive income are as follows:

(In thousands)	Nine Months Ended		Three Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Foreign Currency Translation Adjustments	\$ 3,987	\$ 1,354	\$ 1,496	\$ 49
Retirement Liability Adjustments:				
Reclassifications to General and Administrative Expense:				
Amortization of Prior Service Cost	303	329	101	110
Amortization of Net Actuarial Losses	300	273	100	90
Tax Benefit	(211)	(210)	(71)	(70)
Retirement Liability Adjustment	392	392	130	130
Other Comprehensive Income	\$ 4,379	\$ 1,746	\$ 1,626	\$ 179

**12) Supplemental Retirement Plan and Related Post Retirement Benefits**

The Company has two non-qualified supplemental retirement defined benefit plans (“SERP” and “SERP II”) for certain executive officers. The following table sets forth information regarding the net periodic pension cost for the plans.

(In thousands)	Nine Months Ended		Three Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Service Cost	\$ 138	\$ 130	\$ 46	\$ 43
Interest Cost	672	675	224	225
Amortization of Prior Service Cost	291	310	97	103
Amortization of Net Actuarial Losses	279	257	93	86
Net Periodic Cost	\$ 1,380	\$ 1,372	\$ 460	\$ 457

Participants in the SERP are entitled to paid medical, dental and long-term care insurance benefits upon retirement under the plan. The following table sets forth information regarding the net periodic cost recognized for those benefits:

(In thousands)	Nine Months Ended		Three Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Service Cost	\$ 6	\$ 4	\$ 2	\$ 1
Interest Cost	30	30	10	10
Amortization of Prior Service Cost	12	19	4	7
Amortization of Net Actuarial Losses	21	16	7	4
Net Periodic Cost	\$ 69	\$ 69	\$ 23	\$ 22

**13) Sales to Major Customers**

The Company has a significant concentration of business with two major customers, each in excess of 10% of consolidated sales. The loss of either of these customers would significantly, negatively impact our sales and earnings.

Sales to these two customers represented 20% and 17% of consolidated sales for the nine months ended and 20% and 17% for the three months ended September 30, 2017. Sales to these customers were in the Aerospace segment. Accounts receivable from these customers at September 30, 2017 was approximately \$29.9 million. Sales to these two customers represented 21% and 15% of consolidated sales for the nine months ended and 21% and 15% for the three months ended October 1, 2016.

**14) Legal Proceedings**

The Company is subject to various legal proceedings, claims, and litigation arising in the ordinary course of business. While the outcome of these matters is currently not determinable, we do not expect these matters will have a material adverse effect on our business, financial position, results of operations, or cash flows. However, the results of these matters cannot be predicted with certainty. Should the Company fail to prevail in any legal matter or should several legal matters be resolved against the Company in the same reporting period, then the financial results of that particular reporting period could be materially adversely affected.

On December 29, 2010, Lufthansa Technik AG (“Lufthansa”) filed a Statement of Claim in the Regional State Court of Mannheim, Germany. Lufthansa’s claim asserts that our subsidiary, AES sold, marketed and brought into use in Germany a power supply system that infringes upon a German patent held by Lufthansa. The relief sought by Lufthansa includes requiring AES to stop selling and marketing the allegedly infringing power supply system, a recall of allegedly infringing products sold to commercial customers since November 26, 2003 and compensation for damages. The claim does not specify an estimate of damages and a damages claim would be pursued by Lufthansa in separate court proceedings.

On February 6, 2015, the Regional State Court of Mannheim, Germany rendered its decision that the patent was infringed. The judgment does not require AES to recall products that are already installed in aircraft or have been sold to other end users. On July 15, 2015, Lufthansa advised AES of their intention to enforce the accounting provisions of the decision, which required AES to provide certain financial information regarding sales of the infringing product to enable Lufthansa to make an estimate

[Table of Contents](#)

of requested damages. Additionally, if Lufthansa provides the required bank guarantee specified in the decision, the Company may be required to offer a recall of products that are in the distribution channels in Germany. No such bank guarantee has been issued to date. As of September 30, 2017, there are no products in the distribution channels in Germany.

The Company appealed to the Higher Regional Court of Karlsruhe. On November 15, 2016, the Court issued its ruling and upheld the lower court's decision. The Company has submitted a petition to grant AES leave for appeal to the Federal Supreme Court. The Company believes it has valid defenses to refute the decision. Should the Federal Supreme Court decide to hear the case, the appeal process is estimated to extend up to two years. We estimate AES's potential exposure related to this matter to be approximately \$1 million to \$3 million. As loss exposure is not probable at this time, the Company has not recorded any liability with respect to this litigation as of September 30, 2017.

On November 26, 2014, Lufthansa filed a complaint in the United States District for the Western District of Washington. Lufthansa's complaint in this action alleges that AES manufactures, uses, sells and offers for sale a power supply system that infringes upon a U.S. patent held by Lufthansa. The patent at issue in the U.S. action is based on technology similar to that involved in the German action. On April 25, 2016, the Court issued its ruling on claim construction, holding that the sole independent claim in the patent is indefinite, rendering all claims in the patent indefinite. Based on this ruling, AES filed a motion for summary judgment on the grounds that the Court's ruling that the patent is indefinite renders the patent invalid and unenforceable. On July 20, 2016, the U.S. District Court granted the motion for summary judgment and issued an order dismissing all claims against AES with prejudice.

Lufthansa appealed the District Court's decision to the United States Court of Appeals for the Federal Circuit. On October 19, 2017, the Federal Circuit affirmed the district court's decision, holding that the sole independent claim of the patent is indefinite, rendering all claims on the patent indefinite. Lufthansa has until November 20, 2017, to ask for rehearing or rehearing en banc. If it does not file such a petition, it has until January 18, 2018, to file a petition for writ of certiorari with the U.S. Supreme Court. As loss exposure is neither probable nor estimable at this time, the Company has not recorded any liability with respect to this litigation as of September 30, 2017.

**15) Segment Information**

Below are the sales and operating profit by segment for the nine months ended September 30, 2017 and October 1, 2016 and a reconciliation of segment operating profit to income before income taxes. Operating profit is net sales less cost of products sold and other operating expenses excluding interest and corporate expenses. Cost of products sold and other operating expenses are directly identifiable to the respective segment.

(Dollars in thousands)	Nine Months Ended		Three Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016

Corporate	31,217	26,877
Total Assets	\$ 640,628	\$ 604,344

**16) Fair Value**

A fair value measurement assumes that the transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. Fair value is based upon an exit price model. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and involves consideration of factors specific to the asset or liability.

The Company follows a valuation hierarchy for disclosure of the inputs to valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument.

Level 3 inputs are unobservable inputs based on our own assumptions used to measure assets and liabilities at fair value.

On a Recurring Basis:

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The financial liabilities carried at fair value measured on a recurring basis consisted of contingent consideration related to a prior acquisition, valued at zero at December 31, 2016, determined using Level 3 inputs. This arrangement has expired and as of September 30, 2017 there are no financial liabilities carried at fair value measured on a recurring basis. There were no financial assets carried at fair value measured on a recurring basis at December 31, 2016 or September 30, 2017.

On a Non-recurring Basis:

The Company estimates the fair value of reporting units, utilizing unobservable Level 3 inputs. Level 3 inputs require significant management judgment due to the absence of quoted market prices or observable inputs for assets of a similar nature. The Company utilizes a discounted cash flow analysis to estimate the fair value of reporting units utilizing unobservable inputs. The fair value measurement of the reporting unit under the step-one and step-two analysis of the quantitative goodwill impairment test are classified as Level 3 inputs.

Intangible assets that are amortized are evaluated for recoverability whenever adverse effects or changes in circumstances indicate that the carrying value may not be recoverable. The recoverability test consists of comparing the undiscounted projected cash flows with the carrying amount. Should the carrying amount exceed undiscounted projected cash flows, an impairment loss would be recognized to the extent the carrying amount exceeds fair value. For the Company's indefinite-lived intangible asset, the impairment test consists of comparing the fair value, determined using the relief from royalty method, with its carrying amount. An impairment loss would be recognized for the carrying amount in excess of its fair value.

At September 30, 2017, the fair value of goodwill and intangible assets classified using Level 3 inputs are comprised of the CCC goodwill and intangible assets acquired on April 3, 2017, which are currently valued based on management's best estimates. When the accounting for the acquisition is finalized, these intangible assets will be valued using discounted cash flow methodology.

Due to their short-term nature, the carrying value of cash and equivalents, accounts receivable, accounts payable, and notes payable approximate fair value. The carrying value of the Company's variable rate long-term debt instruments also approximates fair value due to the variable rate feature of these instruments. As of September 30, 2017, the Company concluded that no indicators of impairment relating to intangible assets or goodwill existed and an interim test was not performed.

### **17) Recent Accounting Pronouncements**

In May 2014, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2014-9, *Revenue from Contracts with Customers*. This new standard is effective for reporting periods beginning after December 15, 2017, pursuant to the issuance of ASU 2015-14, *Revenue from Contracts with Customers: Deferral of Effective Date* issued in August 2015. The comprehensive new standard will supersede existing revenue recognition guidance and require revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods or services. Adoption of the new rules could affect the timing of revenue recognition for certain transactions. The guidance permits two implementation approaches, one requiring retrospective application of the new standard with restatement of prior years and one requiring prospective application of the new standard with disclosure of results under old standards. The Company will adopt the new standard on January 1, 2018, using the modified retrospective transition method.

The adoption of this amendment may require us to accelerate the recognition of revenue as compared to current standards, for certain customers, in cases where we produce products unique to those customers; and for which we would have an enforceable right of payment for production completed to date. The Company has identified its revenue streams, reviewed the initial impacts of adopting the new standard on those revenue streams, and appointed a project management leader. The Company continues to evaluate the quantitative and qualitative impacts of the standard.

In February 2016, the FASB issued ASU No. 2016 - 02, *Leases*. The new standard is effective for reporting periods beginning after December 15, 2018. Early adoption is permitted. The standard will require lessees to report most leases as assets and liabilities on the balance sheet, while lessor accounting will remain substantially unchanged. The standard requires a modified retrospective transition approach for existing leases, whereby the new rules will be applied to the earliest year presented. The adoption of the standard is not expected to have a material effect on the Company’s financial position, results of operations or cash flows.

In August 2016, the FASB issued ASU No. 2016-15, *Classification of Certain Cash Receipts and Cash Payments*, which is intended to reduce diversity in practice in how certain cash receipts and payments are presented and classified in the statement of cash flows. The standard provides guidance in a number of situations including, among others, settlement of zero-coupon bonds, contingent consideration payments made after a business combination, proceeds from the settlement of insurance claims, and distributions received from equity method investees. The ASU also provides guidance for classifying cash receipts and payments that have aspects of more than one class of cash flows. This ASU is effective for fiscal years beginning after December 15, 2017, with early adoption permitted. The standard requires application using a retrospective transition method. This ASU is not expected to have a material impact on the Company’s consolidated results of operations and financial condition.

In January 2017, the FASB issued ASU No. 2017-01, *Clarifying the Definition of a Business*, which narrows the existing definition of a business and provides a framework for evaluating whether a transaction should be accounted for as an acquisition (or disposal) of assets or a business. The ASU requires an entity to evaluate if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets; if so, the set of transferred assets and activities (collectively, the set) is not a business. To be considered a business, the set would need to include an input and a substantive process that together significantly contribute to the ability to create outputs. The standard also narrows the definition of outputs. The definition of a business affects areas of accounting such as acquisitions, disposals and goodwill. Under the new guidance, fewer acquired sets are expected to be considered businesses. This ASU is effective for fiscal years beginning after December 15, 2017 on a prospective basis with early adoption permitted. The Company would apply this guidance to applicable transactions after the adoption date.

In March 2017, the FASB issued ASU 2017-07, *Compensation-Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, which requires employers to include only the service cost component of net periodic pension cost and net periodic postretirement benefit cost in operating expenses. The other components of net benefit cost, including amortization of prior service cost/credit and net actuarial gains/losses, and settlement and curtailment effects, are to be included in non-operating expenses. The ASU also stipulates that only the service cost component of net benefit cost is eligible for capitalization. The effective date for adoption of this guidance begins on January 1, 2018, with early adoption permitted. The Company is currently evaluating the effect that this standard will have on the consolidated financial statements.

***18) Acquisitions***

**Custom Control Concepts LLC**

On April 3, 2017, Astronics Custom Control Concepts Inc., a wholly owned subsidiary of the Company acquired substantially all the assets and certain liabilities of Custom Control Concepts LLC (“CCC”), located in Kent, Washington. CCC is a provider of cabin management and in-flight entertainment systems for a range of aircraft. The total consideration for the transaction was approximately \$10.2 million, net of \$0.5 million in cash acquired. All of the goodwill and purchased intangible assets are expected to be deductible for tax purposes over 15 years. The purchase price allocation for this acquisition has not been finalized. CCC is included in our Aerospace segment.

**Telefonix, Incorporated**

Subsequent to the end of the third quarter, on October 26, 2017, the Company, through a wholly owned acquisition subsidiary, entered into an agreement to purchase substantially all of the assets of Telefonix, Incorporated and a related company, Product Development Technologies, LLC. Under the terms of the Agreement, the total consideration for the transaction will be approximately \$104.0 million in cash.

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*(The following should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations contained in the Company's Form 10-K for the year ended December 31, 2016.)*

**OVERVIEW**

Astronics Corporation ("Astronics" or the "Company") is a leading supplier of products to the global aerospace, defense, electronics and semiconductor industries. Our products and services include advanced, high-performance electrical power generation, distribution and motion systems, lighting & safety systems, avionics products, aircraft structures, systems certification and automated test systems.

Our Aerospace segment designs and manufactures products for the global aerospace industry. Product lines include lighting & safety systems, electrical power generation, distribution and motion systems, aircraft structures, avionics products, systems certification and other products. Our Aerospace customers are the airframe manufacturers ("OEM") that build aircraft for the commercial, military and general aviation markets, suppliers to those OEM's, aircraft operators such as airlines and branches of the U.S. Department of Defense as well as the Federal Aviation Administration and airport operators. Our Test Systems segment designs, develops, manufactures and maintains automated test systems that support the semiconductor, aerospace, communications and weapons test systems as well as training and simulation devices for both commercial and military applications. In the Test Systems segment, Astronics' products are sold to a global customer base including OEM's and prime government contractors for both electronics and military products.

Our strategy is to increase our value by developing technologies and capabilities either internally or through acquisition, and using those capabilities to provide innovative solutions to the aerospace and defense, semiconductor and other markets where our technology can be beneficial.

Important factors affecting our growth and profitability are the rate at which new aircraft are produced, government funding of military programs, our ability to have our products designed into new aircraft and the rates at which aircraft owners, including commercial airlines, refurbish or install upgrades to their aircraft. New aircraft build rates and aircraft owners spending on upgrades and refurbishments is cyclical and dependent on the strength of the global economy. Once designed into a new aircraft, the spare parts business is frequently retained by the Company. Future growth and profitability of the Test Systems business is dependent on developing and procuring new and follow-on business in commercial electronics and semiconductor markets as well as with the military. The nature of our Test Systems business is such that it pursues large multi-year projects. There can be significant periods of time between orders in this business which may result in large fluctuations of sales and profit levels and backlog from period to period.

**ACQUISITIONS**

**Custom Control Concepts LLC**

On April 3, 2017, Astronics Custom Control Concepts Inc., a wholly owned subsidiary of the Company acquired substantially all the assets and certain liabilities of Custom Control Concepts LLC ("CCC"), located in Kent, Washington. CCC is a provider of cabin management and in-flight entertainment (IFE) systems for a range of aircraft. The total consideration for the transaction was approximately \$10.2 million, net of \$0.5 million in cash acquired. CCC is included in our Aerospace segment.

**Telefonix, Incorporated**

Subsequent to the end of the third quarter, on October 26, 2017, the Company, through a wholly owned acquisition subsidiary, entered into an agreement to purchase substantially all of the assets of Telefonix, Incorporated and a related company, Product Development Technologies, LLC. Under the terms of the Agreement, the total consideration for the transaction will be approximately \$104.0 million in cash.

**CONSOLIDATED RESULTS OF OPERATIONS AND OUTLOOK**

(Dollars in thousands)	Nine Months Ended		Three Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Sales	\$ 453,146	\$ 479,055	\$ 149,636	\$ 155,099
Gross Profit (sales less cost of products sold)	\$ 104,960	\$ 122,981	\$ 32,493	\$ 38,663
Gross Margin	23.2%	25.7%	21.7%	24.9%
Selling, General and Administrative Expenses	\$ 66,504	\$ 65,246	\$ 22,410	\$ 21,138
SG&A Expenses as a Percentage of Sales	14.7%	13.6%	15.0%	13.6%
Interest Expense, Net of Interest Income	\$ 3,750	\$ 3,246	\$ 1,437	\$ 1,103
Effective Tax Rate	27.0%	29.3%	29.9%	26.5%
Net Income	\$ 25,332	\$ 38,539	\$ 6,060	\$ 12,074

A discussion by segment can be found at “Segment Results of Operations and Outlook” in this MD&A.

**CONSOLIDATED THIRD QUARTER RESULTS**

Consolidated sales were down \$5.5 million from the same period last year. Aerospace segment sales of \$128.7 million were up \$3.5 million and Test Systems segment sales of \$21.0 million were down \$9.0 million.

Consolidated cost of products sold in the third quarter of 2017 increased \$0.7 million to \$117.1 million compared with \$116.4 million in the third quarter of 2016. The increase was the result of the additional cost of products sold by Custom Control Concepts ("CCC") offset by lower organic sales volumes. Organic Engineering and Development ("E&D") costs were \$22.2 million in the quarter, compared with \$21.6 million in last year's third quarter. As a percent of sales, organic E&D costs were 14.8% and 13.9% in the third quarters of 2017 and 2016, respectively. CCC incurred E&D costs of \$1.5 million in the third quarter.

Selling, general and administrative (“SG&A”) expenses were \$22.4 million, or 15.0% of sales, in the third quarter of 2017 compared with \$21.1 million, or 13.6% of sales, in the same period last year.

The effective tax rate for the quarter was 29.9%, compared with 26.5% in the third quarter of 2016. The 2017 third quarter tax rate was unfavorably impacted by additional state income tax expense when compared with the third quarter of 2016.

Net income was \$6.1 million, or \$0.21 per diluted share compared with \$12.1 million or \$0.41 per diluted share in the prior year.

**CONSOLIDATED YEAR-TO-DATE RESULTS**

Consolidated sales for the first nine months of 2017 decreased by \$25.9 million, or 5.4%, to \$453.1 million. Aerospace segment sales were down \$11.0 million, or 2.7%, year-over-year to \$395.0 million, while Test Systems segment sales were down \$15.0 million, or 20.5%, to \$58.1 million.

Consolidated cost of products sold in nine months ended 2017 decreased \$7.9 million to \$348.2 million compared with \$356.1 million in the same period of 2016. The decrease was a result of lower organic sales volumes offset by CCC's additional costs of products sold. Organic E&D costs were 14.7% of sales, or \$66.8 million, compared with \$66.2 million, or 13.8% of sales, in the prior year's first nine months. SG&A expenses were \$66.5 million, or 14.7% of sales, in the first nine months of 2017 compared with \$65.2 million, or 13.6% of sales, in the same period last year.

The effective tax rate for the first nine months of 2017 was 27.0%, compared with 29.3% in the first nine months of 2016. The tax rate in the first nine months of 2017 was favorably impacted by excess tax benefits as a result of a new U.S. GAAP accounting standard impacting the tax accounting treatment of employee share-based compensation, decreases in foreign tax rates, and the federal research and development tax credit.

Net income for the first half of 2017 totaled \$25.3 million, or \$0.85 per diluted share.

During the third quarter, the Company repurchased approximately 702,000 shares at an aggregate cost of \$18.9 million under its share repurchase program. Since the inception of the program in February 2016, the Company has repurchased approximately 1,675,000 shares and has completed the program, which authorized repurchases up to \$50.0 million.

#### CONSOLIDATED OUTLOOK

Fourth quarter sales are forecasted to be in the range of \$169 million to \$183 million, with \$139 million to \$150 million expected from the Aerospace segment and \$30 million to \$33 million from the Test segment.

Consolidated annual sales in 2017 are forecasted to be in the range of \$622 million to \$636 million. Approximately \$534 million to \$545 million of revenue is expected from the Aerospace segment and \$88 million to \$91 million from the Test Systems segment. The Company issued its initial revenue outlook for 2018 of \$675 million to \$750 million. The Aerospace segment is expected to have 2018 revenue of \$570 million to \$630 million. The Test segment is expected to generate \$105 million to \$120 million in revenue in 2018. These estimates are without effect of the new revenue recognition rules that will be effective January 1, 2018.

Consolidated backlog at September 30, 2017 was \$302.3 million, of which approximately \$148.5 million is expected to ship in 2017.

The effective tax rate for 2017 is expected to be in the range of 28% to 30%.

Capital equipment spending in 2017 is expected to be in the range of \$17 million to \$19 million.

E&D costs are expected to be in the range of \$96 million to \$97 million including the engineering costs from CCC.

#### ***SEGMENT RESULTS OF OPERATIONS AND OUTLOOK***

Operating profit, as presented below, is sales less cost of products sold and other operating expenses, excluding interest expense and other corporate expenses. Cost of products sold and other operating expenses are directly identifiable to the respective segment. Operating profit is reconciled to earnings before income taxes in Note 15 of the Notes to Consolidated Condensed Financial Statements included in this report.

**AEROSPACE SEGMENT**

**AEROSPACE THIRD QUARTER RESULTS**

Aerospace segment sales increased by \$3.5 million, or 2.8%, when compared with the prior year's third quarter to \$128.7 million. CCC contributed \$3.5 million in sales in the 2017 third quarter.

Electrical Power & Motion sales decreased \$4.3 million, or 6.3%, due to lower sales of in-seat and cabin power products due to a combination of lower volume and pricing. Lighting & Safety sales decreased by \$2.0 million primarily due to lower passenger service unit sales. Avionics sales were up \$5.5 million as a result of \$2.0 million increase in antennae and other avionics sales combined with the CCC acquisition. Structures sales increased by \$2.5 million and Systems Certification sales increased by \$1.9 million on higher project activity.

Aerospace operating profit for the third quarter of 2017 was \$13.0 million, or 10.1% of sales, compared with \$17.6 million, or 14.0% of sales, in the same period last year. Aerospace operating profit was negatively impacted by market pricing pressures primarily relating to cabin power products, a \$1.8 million operating loss from the CCC acquisition and slightly higher E&D costs. Organic Aerospace E&D costs were \$19.6 million compared with \$18.9 million in the same period last year. CCC incurred E&D costs of \$1.5 million during the quarter.

Aerospace orders in the third quarter of 2017 were \$146.2 million, for a book-to-bill ratio of 1.14:1 for the quarter. Backlog was \$233.2 million at the end of the third quarter of 2017.

## AEROSPACE YEAR-TO-DATE RESULTS

Aerospace segment sales decreased by \$11.0 million, or 2.7%, to \$395.0 million, when compared with the prior year's first nine months.

Electrical Power & Motion sales decreased \$20.2 million, or 9.2%, for similar reasons as discussed in the quarter and Systems Certifications sales decreased \$3.2 million from lower project activity earlier in the year. These declines were partially offset by increased Avionics sales, up \$8.7 million of which \$7.0 million was from the CCC acquisition and \$1.7 million from other avionics products. Structures sales increased by \$4.4 million.

Aerospace operating profit for the first nine months of 2017 was \$46.8 million, or 11.8% of sales, compared with \$61.1 million, or 15.0% of sales, in the same period last year. Aerospace operating profit was negatively impacted by lower sales volumes and market pricing pressures, coupled with the operating loss from the acquired CCC business. E&D costs for Aerospace were \$62.5 million (inclusive of \$2.7 million related to the acquired CCC business) and \$58.3 million in the first nine months of 2017 and 2016, respectively. Aerospace SG&A expense was \$46.9 million in the first nine months of 2017 as compared with \$45.5 million in the same period in 2016.

## AEROSPACE OUTLOOK

We expect 2017 sales for our Aerospace segment to be in the range of \$534 million to \$545 million. The Aerospace segment's backlog at the end of the third quarter of 2017 was \$233.2 million with approximately \$124.8 million expected to be shipped over the remaining part of 2017 and \$212.1 million is expected to ship over the next 12 months.

## TEST SYSTEMS SEGMENT

(In thousands)	Nine Months Ended		Three Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Sales	\$ 58,109	\$ 73,066	\$ 20,973	\$ 29,920
Operating profit (loss)	\$ 2,843	\$ 6,524	\$ 1,093	\$ 3,240
Operating Margin	4.9%	8.9%	5.2%	10.8%

### Test Systems Sales by Market

(In thousands)	September 30, 2017		October 1, 2016	
Semiconductor	\$ 18,343	\$ 33,863	\$ 6,632	\$ 16,878
Aerospace & Defense	39,766	39,203	14,341	13,042
	\$ 58,109	\$ 73,066	\$ 20,973	\$ 29,920

(In thousands)	September 30, 2017	December 31, 2016
Total Assets	\$ 85,848	\$ 76,575
Backlog	\$ 69,119	\$ 38,887

## TEST SYSTEMS THIRD QUARTER RESULTS

Sales in the third quarter of 2017 decreased approximately \$9.0 million to \$21.0 million compared with the same period in 2016, a decrease of 29.9%. The \$10.2 million decline in sales to the Semiconductor market were somewhat offset by a \$1.3 million increase in sales to the Aerospace & Defense market when compared with the prior-year period.

Operating profit was \$1.1 million, or 5.2% of sales, compared with \$3.2 million, or 10.8% of sales, in last year's third quarter. E&D costs were \$2.6 million, down slightly from \$2.7 million in the third quarter of 2016. Test Systems SG&A expense decreased to \$2.6 million in the third quarter of 2017 compared with \$3.4 million in the same period last year.

Orders for the Test Systems segment in the quarter were \$40.2 million, for a book-to-bill ratio of 1.91:1 for the quarter. Backlog was \$69.1 million at the end of the third quarter of 2017.

## TEST SYSTEMS YEAR-TO-DATE RESULTS

Sales in the first nine months of 2017 decreased 20.5% to \$58.1 million compared with sales of \$73.1 million for the same period in 2016, due to lower sales to the Semiconductor market. Sales to the Semiconductor market decreased \$15.5 million compared with the same period in 2016.

Operating profit was \$2.8 million, or 4.9% of sales, compared with \$6.5 million, or 8.9% of sales, in the first nine months of 2016. E&D costs were \$7.0 million in the first nine months of 2017 compared with \$7.9 million in the same period in the prior year. SG&A costs declined to \$8.4 million in the first nine months of 2017 compared with \$9.8 million in the same period in 2016.

## TEST SYSTEMS OUTLOOK

We expect sales for the Test Systems segment for 2017 to be in the range of \$88 million to \$91 million. The Test Systems segment's backlog at the end of the third quarter of 2017 was \$69.1 million with approximately \$23.7 million expected to be shipped over the remaining part of 2017 and approximately \$58.1 million scheduled to ship over the next 12 months.

## *LIQUIDITY AND CAPITAL RESOURCES*

### **Operating Activities:**

Cash provided by operating activities totaled \$22.3 million for the first nine months of 2017, as compared with \$25.2 million during the same period in 2016. Cash flow from operating activities decreased compared with the same period of 2016 primarily due to the impact of lower net income and lower increases in net operating assets for the first nine months of 2017 when compared with the first nine months of 2016.

### **Investing Activities:**

Cash used for investing activities included \$10.2 million for the acquisition of CCC, as well as capital expenditures, which were \$9.7 million for the first nine months of 2017 compared with \$9.9 million used in the same period of 2016. The Company expects capital spending in 2017 to be in the range of \$17 million to \$19 million.

### **Financing Activities:**

The primary financing activities in 2017 relate to net borrowings on our senior credit facility to fund the acquisition of CCC and purchases of treasury stock as part of the buyback program.

The Company's obligations under the Credit Agreement as amended are jointly and severally guaranteed by each domestic subsidiary of the Company other than a non-material subsidiary. The obligations are secured by a first priority lien on substantially all of the Company's and the guarantors' assets.

The Company's Credit Agreement consists of a \$350 million revolving credit line with the option to increase the line by up to \$150 million. The Credit Agreement expires January 13, 2021. On January 13, 2016, At September 30, 2017 there was \$167.0 million outstanding on the revolving credit facility and there remains \$181.9 million available, net of outstanding letters of credit. The credit facility allocates up to \$20 million of the \$350 million revolving credit line for the issuance of letters of credit, including certain existing letters of credit. At September 30, 2017, outstanding letters of credit totaled \$1.1 million.

The maximum permitted leverage ratio of funded debt to Adjusted EBITDA (as defined in the Agreement) is 3.5 to 1, increasing to 4.0 to 1 for up to two fiscal quarters following the closing of an acquisition permitted under the Agreement. The Company's leverage ratio was 2.12 to 1 at September 30, 2017. The Company will pay interest on the unpaid principal amount of the facility at a rate equal to one-, three- or six-month LIBOR plus between 137.5 basis points and 225 basis points based upon the Company's leverage ratio. The Company will also pay a commitment fee to the lenders in an amount equal to between 17.5 basis points and 35 basis points on the undrawn portion of the credit facility, based upon the Company's leverage ratio. The Company must also maintain a minimum interest coverage ratio (Adjusted EBITDA to interest expense) of 3.0 to 1 for the term of the Agreement. The Company's interest coverage ratio was 20.2 to 1 at September 30, 2017.

In the event of voluntary or involuntary bankruptcy of the Company or any subsidiary, all unpaid principal and other amounts owing under the Agreement automatically become due and payable. Other events of default, such as failure to make payments as they become due and breach of financial and other covenants, change of control, judgments over a certain amount, and cross default under other agreements give the Agent the option to declare all such amounts immediately due and payable.

**BACKLOG**

The Company's backlog at September 30, 2017 was \$302.3 million compared with \$258.0 million at December 31, 2016 and \$275.2 million at October 1, 2016.

**CONTRACTUAL OBLIGATIONS AND COMMITMENTS**

The following table represents contractual obligations as of September 30, 2017:

(In thousands)	Payments Due by Period				
	Total	2017	2018-2019	2019-2020	After 2020
Long-term Debt	\$ 177,345	\$ 682	\$ 4,595	\$ 171,172	\$ 896
Purchase Obligations	118,478	67,634	50,427	417	—
Interest on Long-term Debt	16,212	1,267	9,868	5,065	12
Supplemental Retirement Plan and Post Retirement Obligations	22,243	104	826	811	20,502
Operating Leases	6,083	864	4,829	371	19
Other Long-term Liabilities	203	17	95	29	62
<b>Total Contractual Obligations</b>	<b>\$ 340,564</b>	<b>\$ 70,568</b>	<b>\$ 70,640</b>	<b>\$ 177,865</b>	<b>\$ 21,491</b>

Notes to Contractual Obligations Table

*Purchase Obligations* — Purchase obligations are comprised of the Company's commitments for goods and services in the normal course of business.

*Long-Term Debt* — See Part 1 Financial Information, Item 1 Financial Statements, Note 6, Long-Term Debt and Notes Payable included in this report.

*Operating Leases* — Operating lease obligations are primarily related to the Company's facility leases.

On October 26, 2017, we entered into an agreement to purchase substantially all of the assets of Telefonix, Incorporated and a related company, Product Development Technologies, LLC, for approximately \$104 million in cash. The table above excludes any obligations or commitments related to this pending acquisition.

**MARKET RISK**

The Company believes that there have been no material changes in the current year regarding the market risk information for its exposure to interest rate fluctuations. Although the majority of our sales, expenses and cash flows are transacted in U.S. dollars, we have exposure to changes in foreign currency exchange rates related to the Euro and the Canadian dollar. The Company believes that the impact of changes in foreign currency exchange rates in 2017 have not been significant.

**CRITICAL ACCOUNTING POLICIES**

Refer to the Company's annual report on Form 10-K for the year ended December 31, 2016 for a complete discussion of the Company's critical accounting policies.

## **RECENT ACCOUNTING PRONOUNCEMENTS**

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-9, *Revenue from Contracts with Customers*. This new standard is effective for reporting periods beginning after December 15, 2017, pursuant to the issuance of ASU 2015-14, *Revenue from Contracts with Customers: Deferral of Effective Date* issued in August 2015. The comprehensive new standard will supersede existing revenue recognition guidance and require revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods or services. Adoption of the new rules could affect the timing of revenue recognition for certain transactions. The guidance permits two implementation approaches, one requiring retrospective application of the new standard with restatement of prior years and one requiring prospective application of the new standard with disclosure of results under old standards. The Company will adopt the new standard on January 1, 2018, using the modified retrospective transition method.

The adoption of this amendment may require us to accelerate the recognition of revenue as compared to current standards, for certain customers, in cases where we produce products unique to those customers; and for which we would have an enforceable right of payment for production completed to date. The Company has identified its revenue streams, reviewed the initial impacts of adopting the new standard on those revenue streams, and appointed a project management leader. The Company continues to evaluate the quantitative and qualitative impacts of the standard.

In February 2016, the FASB issued ASU No. 2016 - 02, *Leases*. The new standard is effective for reporting periods beginning after December 15, 2018. Early adoption is permitted. The standard will require lessees to report most leases as assets and liabilities on the balance sheet, while lessor accounting will remain substantially unchanged. The standard requires a modified retrospective transition approach for existing leases, whereby the new rules will be applied to the earliest year presented. The adoption of the standard is not expected to have a material effect on the Company’s financial position, results of operations or cash flows.

In August 2016, the FASB issued ASU No. 2016-15, *Classification of Certain Cash Receipts and Cash Payments*, which is intended to reduce diversity in practice in how certain cash receipts and payments are presented and classified in the statement of cash flows. The standard provides guidance in a number of situations including, among others, settlement of zero-coupon bonds, contingent consideration payments made after a business combination, proceeds from the settlement of insurance claims, and distributions received from equity method investees. The ASU also provides guidance for classifying cash receipts and payments that have aspects of more than one class of cash flows. This ASU is effective for fiscal years beginning after December 15, 2017, with early adoption permitted. The standard requires application using a retrospective transition method. This ASU is not expected to have a material impact on the Company’s consolidated results of operations and financial condition.

In January 2017, the FASB issued ASU No. 2017-01, *Clarifying the Definition of a Business*, which narrows the existing definition of a business and provides a framework for evaluating whether a transaction should be accounted for as an acquisition (or disposal) of assets or a business. The ASU requires an entity to evaluate if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets; if so, the set of transferred assets and activities (collectively, the set) is not a business. To be considered a business, the set would need to include an input and a substantive process that together significantly contribute to the ability to create outputs. The standard also narrows the definition of outputs. The definition of a business affects areas of accounting such as acquisitions, disposals and goodwill. Under the new guidance, fewer acquired sets are expected to be considered businesses. This ASU is effective for

fiscal years beginning after December 15, 2017 on a prospective basis with early adoption permitted. The Company would apply this guidance to applicable transactions after the adoption date.

In March 2017, the FASB issued ASU 2017-07, *Compensation-Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, which requires employers to include only the service cost component of net periodic pension cost and net periodic postretirement benefit cost in operating expenses. The other components of net benefit cost, including amortization of prior service cost/credit and net actuarial gains/losses, and settlement and curtailment effects, are to be included in non-operating expenses. The ASU also stipulates that only the service cost component of net benefit cost is eligible for capitalization. The effective date for adoption of this guidance begins on January 1, 2018, with early adoption permitted. The Company is currently evaluating the effect that this standard will have on the consolidated financial statements.

### **FORWARD-LOOKING STATEMENTS**

Information included in this report that does not consist of historical facts, including statements accompanied by or containing words such as “may,” “will,” “should,” “believes,” “expects,” “expected,” “intends,” “plans,” “projects,” “approximate,” “estimates,” “predicts,” “potential,” “outlook,” “forecast,” “anticipates,” “presume” and “assume,” are forward-looking statements. Such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are not guarantees of future performance and are subject to several factors, risks and uncertainties, the impact or occurrence of which could cause actual results to differ materially from the expected results described in the forward-looking statements. Certain of these factors, risks and uncertainties are discussed in the sections of this report entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” New factors, risks and uncertainties may emerge from time to time that may affect the forward-looking statements made herein. Given these factors, risks and uncertainties, investors should not place undue reliance on forward-looking statements as predictive of future results. We disclaim any obligation to update the forward-looking statements made in this report.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

See Market Risk in Item 2, above.

### **Item 4. Controls and Procedures**

a) Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures that are designed to ensure that material information relating to us, including our consolidated subsidiaries, is made known to our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) by others within our organization to allow timely decisions regarding required disclosure. Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of September 30, 2017. Based on this evaluation, as a result of the material weakness in our internal control over financial reporting described below, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of September 30, 2017.

Notwithstanding the material weakness discussed below, our management, including our Chief Executive Officer and Chief Financial Officer, has concluded that the consolidated financial statements included in this report fairly present, in all material respects, our financial condition, results of operations and cash flows for the periods presented in conformity with accounting principles generally accepted in the United States.

During the quarter ended July 1, 2017, management discovered a material weakness in the design of information technology change controls over a report writing application. Additionally, management identified deficiencies in certain review controls over the financial statement consolidation process, which when aggregated along with the information technology change controls matter described above, aggregated to a material weakness over the financial statement close process as of December 31, 2016. Management does not expect adjustments to any previously issued financial statements as a result of these deficiencies.

The Company is implementing changes to the design and application of new controls and is making significant changes to the design of existing controls over information technology as well as controls related to the financial statement consolidation process. The Company has made progress towards remediation of the material weakness as of the date of this filing and expects to complete remediation by December 31, 2017. We will continue the process of enhancing our controls as well as continue to test their effectiveness over the remainder of 2017.

b) Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2017 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION

### **Item 1. Legal Proceedings**

The Company is subject to various legal proceedings, claims, and litigation arising in the ordinary course of business. While the outcome of these matters is currently not determinable, we do not expect these matters will have a material adverse effect on our business, financial position, results of operations, or cash flows. However, the results of these matters cannot be predicted with certainty. Should the Company fail to prevail in any legal matter or should several legal matters be resolved against the Company in the same reporting period, then the financial results of that particular reporting period could be materially adversely affected.

On December 29, 2010, Lufthansa Technik AG (“Lufthansa”) filed a Statement of Claim in the Regional State Court of Mannheim, Germany. Lufthansa’s claim asserts that our subsidiary, AES sold, marketed and brought into use in Germany a power supply system that infringes upon a German patent held by Lufthansa. The relief sought by Lufthansa includes requiring AES to stop selling and marketing the allegedly infringing power supply system, a recall of allegedly infringing products sold to commercial customers since November 26, 2003 and compensation for damages. The claim does not specify an estimate of damages and a damages claim would be pursued by Lufthansa in separate court proceedings.

On February 6, 2015, the Regional State Court of Mannheim, Germany rendered its decision that the patent was infringed. The judgment does not require AES to recall products that are already installed in aircraft or have been sold to other end users. On July 15, 2015, Lufthansa advised AES of their intention to enforce the accounting provisions of the decision, which required AES to provide certain financial information regarding sales of the infringing product to enable Lufthansa to make an estimate of requested damages. Additionally, if Lufthansa provides the required bank guarantee specified in the decision, the Company may be required to offer a recall of products that are in the distribution channels in Germany. No such bank guarantee has been issued to date. As of September 30, 2017, there are no products in the distribution channels in Germany.

The Company appealed to the Higher Regional Court of Karlsruhe. On November 15, 2016, the Court issued its ruling and upheld the lower court’s decision. The Company has submitted a petition to grant AES leave for appeal to the Federal Supreme Court. The Company believes it has valid defenses to refute the decision. Should the Federal Supreme Court decide to hear the case, the appeal process is estimated to extend up to two years. We estimate AES’s potential exposure related to this matter to be approximately \$1 million to \$3 million. As loss exposure is not probable at this time, the Company has not recorded any liability with respect to this litigation as of September 30, 2017.

On November 26, 2014, Lufthansa filed a complaint in the United States District for the Western District of Washington. Lufthansa’s complaint in this action alleges that AES manufactures, uses, sells and offers for sale a power supply system that infringes upon a U.S. patent held by Lufthansa. The patent at issue in the U.S. action is based on technology similar to that involved in the German action. On April 25, 2016, the Court issued its ruling on claim construction, holding that the sole independent claim in the patent is indefinite, rendering all claims in the patent indefinite. Based on this ruling, AES filed a motion for summary judgment on the grounds that the Court’s ruling that the patent is indefinite renders the patent invalid and unenforceable. On July 20, 2016, the U.S. District Court granted the motion for summary judgment and issued an order dismissing all claims against AES with prejudice.

Lufthansa appealed the District Court’s decision to the United States Court of Appeals for the Federal Circuit. On October 19, 2017, the Federal Circuit affirmed the district court’s decision, holding that the sole independent claim of the patent is indefinite, rendering all claims on the patent indefinite. Lufthansa has until November 20, 2017, to ask for rehearing or rehearing en banc. If it does not file such a petition, it has until January 18, 2018, to file a petition for writ of certiorari with the U.S. Supreme Court. As loss exposure is neither probable nor estimable at this time, the Company has not recorded any liability with respect to this litigation as of September 30, 2017.

Other than this proceeding, we are not party to any significant pending legal proceedings that management believes will result in material adverse effect on our financial condition or results of operations.

### **Item 1a. Risk Factors**

In addition to other information set forth in this report, you should carefully consider the factors discussed in Part 1, Item 1A. “Risk Factors,” in our Annual Report on Form 10-K for the year ended December 31, 2016, which could materially affect our business, financial condition or results of operations. The risks described in our Annual Report on Form 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or results of operations.

**Item 2. Unregistered sales of equity securities and use of proceeds**

(c) The following table summarizes our purchases of our common stock for the quarter ended September 30, 2017.

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid Per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Dollar Value of Shares that may yet be Purchased Under the Program (1)
July 2, 2017 - July 29, 2017	90,135	\$30.29	90,135	\$16,128,000
July 30, 2017 - August 26, 2017	588,402	\$26.38	588,402	\$606,000
August 27, 2017 - September 30, 2017 (2)	23,229	\$26.09	23,229	\$—

(1) On February 24, 2016, the Company's Board of Directors authorized the repurchase of up to \$50 million of common stock.

(2) The Company has repurchased approximately 1,675,000 shares and has completed the program.

(Principal Financial Officer)

## SECTION 302 CERTIFICATION

**Certification of Chief Executive Officer pursuant to Exchange Act rule 13a-14(a) as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Peter J. Gundermann, President and Chief Executive Officer, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Astronics Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

## SECTION 302 CERTIFICATION

**Certification of Chief Financial Officer pursuant to Exchange Act Rule 13a-14(a) as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, David C. Burney, Chief Financial Officer, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Astronics Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**Certification pursuant to  
18 U.S.C. Section 1350,  
as adopted pursuant to  
Section 906 of the Sarbanes-Oxley Act of 2002**

Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, the undersigned officers of Astronics Corporation (the "Company") hereby certify that:

The Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2017 fully complies with the requirements of section 13(a) or 15(d) of the Securities and Exchange Act of 1934 and the information contained in the Form 10-Q fairly presents, in all material respects, the financial condition and results of operations of the Company.
